

December 15, 2020

Hello Friends,

As you know there has been an up-tick in individuals being infected with Covid-19 in our community. The board has recommended we encourage everyone at VVAG use masks and proper hygiene as we take routine safeguards such as sanitizing between services etc.

Since then we been made aware that a couple & one child in our congregation has been infected as well. They had attended a Sunday morning 9am service after which they were made aware that had been infected and reported the matter to us.

Covid-19 is very contagious, yet the mortality remains extremely low according to most recent reports. In Riverside County, 2% of those infected have died and none of those were between the ages of 0-17.

We do not want anyone to be fearful. But please use wisdom and appropriate precautions. Wear masks and keep your hands clean. If you feel sick or think you have been exposed stay home. Regular services and special events will continue unless otherwise notified.

Lord Bless You and Merry Christmas!
